Payment Terms and Conditions

1. Validity

Prices are valid for 10 days from the date of offer. Prices are subjected to change without notice.

2. Payment Terms for Software License

100% payment along with the purchase order is due to Varthagam Software Technologies. Multiple copy pack is also probable with one PO and single payment. After the installation of the software, activation will be provided by Varthagam Software Technologies for the functioning of the software.

3. Payment Terms for Professional Services Fee

Professional service charges such as customization / software development charges and implementation charges are paid monthly after the invoice with details are presented.

4. Payment Mode

Varthagam Software Technologies accepts payment by valid Cheque, Demand draft and Wire Transfer only.

5. License Terms

As per the Varthagam Software Technologies End User Licensing Agreement.

6. Other Product Licenses

Third Party products such as IBM DB2, Oracle, MySQL, MSSQL if required by customer for the SQL version of the Varthagam products, have to be licensed separately from the respective vendor. The point of sale module can work with the FREE edition of the SQL database. Other than Varthagam software, we will not install/support any other software's in customer place.

6. Other Product Licenses

Third Party products such as IBM DB2, Oracle, MySQL, MSSQL if required by customer for the SQL version of the Varthagam products, have to be licensed separately from the respective vendor. The point of sale module can work with the FREE edition of the SQL database. Other than Varthagam software, we will not install/support any other software's in customer place.

7. Order Acceptance

VarthagamSoft will review the purchase order and will communicate the order acceptance including the terms and conditions. Only on order acceptance and on realization of advance, the project commencement date will be discussed. The complete details of the order are in this commercial proposal and there is no other arrangement between the parties.

8. Delivery

As per implementation schedule and project plan discussed during project kick-off.

9. Support Perpetual License Model

The product license charges covers first year ASA [Annual Support Assurance] alone. Customers should purchase the Varthagam ASA (Annual Support Assurance - valid for one year) separately for the continuous Product Maintenance Support. The support policy is as per the attached Varthagam support document and the Varthagam EULA. Please note that the implementation services delivered remotely are not part of the standard support agreement and are covered by the implementation service fee.

10. Sales Management Approval

If the existing Terms & Conditions need to be modified / changed, it requires explicit approval of Sales Management of VarthagamSoft.

11. Business Management Product Recommended

Please note that the actual business management product to be implemented will be decided after the SOP based on knowing the need in detail. The right product in lined with the customer need will be chosen. Please note that all products have uniform edition nomenclature and uniform pricing for each of those edition.

12. Edition Upgradation

If there are any changes in the deployment architecture or the solution capability, additional commercials apply when the edition needs to be upgraded.

13. Data Migration

Data migration is limited to migration of master data, closing stock details and closing balance of every ledger account. Please note that the transaction data will not be migrated. If migration taken by VarthagamSoft, verifying the migrated data and giving approval to use the migrated data is the responsibility of customer. VarthagamSoft will make best efforts to deliver the migration tool but customer must make sure that the migration tool works to his expectation and approves the final migration using the tool.

14. Customization Policy

As per the discussion with the customer, their feedback and suggestions regarding the new features and feature enhancements will be taken up as per our priority and product release plans and delivered as part of our service pack update. If any of the features / feature enhancements are of very high priority to customer, Varthagam will commit a timeline for delivery and will charge customization fee for the same i.e. Features and enhancements done as per Varthagam priority and timeline are not chargeable and done to meet the priority of the customer are chargeable.

15. Consulting and Implementation Services Terms

The invoice on the SOP preparation and the implementation will be raised on the actual efforts spent (might be higher or lower than the estimate, depending on the focus and time put by the customer)

16. Remote implementation services

Sometimes the implementation on the customer premises will be done from our head office remotely using Team-viewer or any other similar software. The implementation charges will still apply, only the travel, boarding and lodging charges will be exempted.

Assuring you of quality support from our end.
